SILICONE GREASE SPRAY

SILICONE GREASE SPRAY is one of the best spray lubricant for general-purpose lubrication that when the solvent flashes off leaves a high lubricity greasy residue.

SILICONE GREASE SPRAY is a formulated lubricant with a temperature range between – 30°C to +300°C. It is a blend of colourless, non-toxic and non-staining silicone concentrates designed to meet most industrial applications.

Silicone GreaseSpray meets the MIL-S-18660 Specification and is classified as Food Grade (Incidental Contact) for use in food packaging / manufacturing applications.

SILICONE GREASE SPRAY eliminates or reduces friction, sticking, adhesion and wear. Because **SILICONE GREASE SPRAY** is clean and odourless, it is used in the food, electronics and plastics industries. Also used in maintenance of gym equipment.

SILICONE GREASE SPRAY may prevent the adhesion of paints or adhesives. We recommend "Paintable" products which retain the silicone characteristics without the disadvantages where paintability is required.

APPLICATIONS INCLUDE: Lubrication of factory equipment, chains slides and couplings. Suitable for lubricating home gyms and other fitness equipment. .

Pack Sizes: 400g aerosol cans

<p>Conditions of Sale: Chem Pack Pty Ltd shall not be liable for any loss, injury, damage or death, whether consequential or otherwise whatsoever or howsoever arising whether through negligence or otherwise in connection with the sales, supply, use or application of this product.
