## ANTI-SPATTER SPRAY

---

**Chemlube Paintable ANTI-SPATTER** is the welders' friend! It is an all-purpose guard against welding spatter adhering to metal in unwanted places during the welding process. It can also be applied to the nozzle of MIG welders to prevent unwanted spatter sticking to the nozzle.

Chemlube Anti-Spatter will not cause undue problems with adhesion of paints or other surface finishes when applied to the welded metal parts.

### Application Instructions:

Surfaces to be treated should be clean. Hold the can about 30cm from surface and spray liberally. Avoid allowing over-spray to contaminate other surfaces. As with all paint surface preparation, a light solvent wipe-down with a suitable solvent before applying metal primer is recommended.

### ACTIVE INGREDIENTS

Viscosity                      350 centistokes at 25°C  
Flash Point                    275°C

### SOLUBILITY IN WATER

Soluble in benzene, carbon tetrachloride, perchloroethylene, toluene,1,1,1, trichloroethane, xylene, insoluble in alcohols, paraffin oil and water.

### TOXICITY

**Non-toxic** and non-irritating except for temporary discomfort if rubbed into the eye. Repeated abuse subcutaneous patch irritation tests produce mild irritation in some cases.

**Pack Sizes: 400g Aerosol & 20 litre drums**

**Conditions of Sale:** Chem Pack Pty Ltd shall not be liable for any loss, injury, damage or death, whether consequential or otherwise whatsoever or howsoever arising through negligence or otherwise in connection with the sales, supply, use or application of this product. The supply of this product is on the express condition that the purchaser does not rely on Chem Pack's skill or judgement in purchasing or using the same and every person dealing with this product does so at his own risk absolutely. No representative of Chem Pack has any authority to add to or alter these conditions.
