## 4. FIRST AID MEASURES

- Ingestion:** Do not induce vomiting, give nothing by mouth. SEEK MEDICAL ATTENTION IMMEDIATELY.
- Eye contact:** Flush immediately, if persistent irritation occurs seek medical assistance.
- Skin contact:** Wash skin with water using soap if available.

# Safety Data Sheet

**Inhalation:** Remove from exposure immediately. If rapid recovery does not occur, obtain medical attention.

**Notes to physician:** Dermatitis may result from prolonged or repeated exposure. Aspiration into the lungs may cause chemical pneumonitis. Causes central nervous system depression.

## 5. FIRE-FIGHTING MEASURES

**Flash Point:** Propellant - 81°C , Active -30°C

**Flammability Limits: (% Vol):** Lower: 1, Upper: 7.5%

**Suitable extinguishing media:** Foam. Dry chemical powder, carbon dioxide, sand or earth may be used for small fires only.

**Hazards from combustion products:** Carbon Monoxide may evolve if incomplete combustion occurs.

### Precautions for Firefighters and Special Protective Equipment

Will float and can be reignited on surface water. The vapour is heavier than air, spreads along the ground and distant ignition is possible. In case of fire, use Self Contained Breathing Apparatus and full protective clothing.

## 6. ACCIDENTAL RELEASE MEASURES

**Cleanup and Disposal of Spill:** Avoid contact with skin, eyes. Do not breathe vapour. Ventilate contaminated area thoroughly. Cleanup personnel should wear nitrile rubber gloves, gauntlet type, jacket and trousers – nitrile rubber, safety boots – rubber, knee length. Wear full face-piece respirator with organic vapour canister and built-in particulate filter NPF 1000 (gas only). In a confined space wear self-contained breathing apparatus open circuit type NPF 2000.

Prevent contamination of soil and water. Prevent from spreading or entering into drains, ditches or rivers by using sand, earth, or other appropriate barriers.

Absorb or contain liquid with sand, earth or spill control material. Shovel up and place in a labeled, sealable container for subsequent safe disposal. Put leaking containers in a labeled drum or overdrum. Scrub contaminated surfaces with detergent solution. Retain washings as contaminated waste.

Risk of explosion. Inform the emergency services if liquid enters surface water drains. Vapour may form an explosive mixture with air.

## 7. HANDLING AND STORAGE

**Precautions for Safe Handling:** Avoid prolonged or repeated skin contact. Wash skin thoroughly after handling. Extinguish any naked flames, remove ignition sources, avoid sparks, do not smoke. Take precautionary measures against static discharges.

**Precautions for Safe Storage:** Keep container tightly closed and in a well ventilated place. Keep away from direct sunlight and other sources heat or ignition. Do not smoke in storage areas.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

### National occupational exposure limits

TWA (8 h) = 50 ppm

TWA (8 h) = 176 mg/m<sup>3</sup>

**Engineering measures:** Provide local exhaust or process enclosure ventilation system. Ensure compliance with applicable exposure limits.

**Personal protection equipment:** Monogoggles, Nitrile rubber gloves, safety shoes or boots – chemical resistant, standard issue work clothes.

## 12. ECOLOGICAL INFORMATION

### Ecotoxicity:

Incomplete ecotoxicological data are available for this product. The information given below is based partly on a knowledge of the components and the ecotoxicity of similar products. Readily biodegradable. Based on product composition. Oxidises rapidly by photo-chemical reactions in air. Integrated environmental half-life expected to be 1 - < 10 days. Has the potential to bioaccumulate. For fish, invertebrates, algae, bacteria and sewage treatment – Expected to be toxic, 1 < LC/EC/IC 50 <= 10 mg/l. In view of the high rate of loss from solution, the product is unlikely to pose a significant hazard to aquatic life.

## 13. DISPOSAL CONSIDERATIONS

For product and waste disposal – recover or recycle if possible. Otherwise incinerate. For container disposal, drain container thoroughly. After draining, vent in a safe place away from sparks and fire. Residues may cause an explosion hazard. Do not puncture, cut or weld unclean drums. Send to drum recoverer or metal reclaimer.
